

Natural and environmental disasters in the end times

Lecture by Lothar Schuller

The causes of natural and
environmental disasters
and how we could prevent them
if we only wanted to

Dear friends in the spirit, if we look at the last year and especially at January 1995, we will see that the catastrophes have become more. Certainly, mankind has always been afflicted with evils of all kinds, but nevertheless we must note that these evils have worldwide increased.

The increase of catastrophes in the so-called end times Jesus has already foretold us in number and extent. Jesus' prediction is not necessarily binding according to His words, but Jesus said to His disciples that everything would come this way because people do not want to change. The causes of the coming apocalyptic states have been created by man himself.

This is due to human arrogance, the desire for power, greed, stupidity, etc.. Therefore Jesus said to His disciples in the house of Lazarus when asked:

GGJ 06.150.15

“Towards the end of the indicated time (meant are nearby 2000 years) I will also awaken greater and greater prophets and with them also the judgments will increase and become more extensive. There will also come great earthquakes and very devastating storms of the elements (elemental storms), great price increases, wars, famine, pestilence and many other evils. “

In the “Second Coming“ the Lord calls us the contamination of the earth, the misfortunes, the catastrophes, the murders and suicides as effects of a godless and god-distant life.

SC 112.41

The bowls of wrath (of the apocalypse) and their effects signify the epidemics and wars which mankind partly caused by its own unnatural life, partly organized wanton abominations itself.

„Even now you can see for yourselves how the effects of selfishness, materialism and unbridled passions cause misfortunes of all kinds, in general and in particular: Accidents at sea and on land, accidents caused by elementary events, caused by the bad economy of people with their own soil, suicides and murders in any form as a result of lack of religious feeling, lack of faith in another world, etc.!”

Accidents, like bad weather with its hurricanes and floods, are all consequences of wrong human actions.

Jesus said to Stahar, a former archpharisee from the burned up Caesarea Philippi:

GGJ 04.144.02

“I say to you: All calamity, epidemics, all kinds of diseases among men and animals, bad weather, lean and barren years, devastating hailstorms, great and all-destroying floods, hurricanes, great storms, great locusts and the like are all consequences of the disorderly conduct of men!

If people were to live in the given order, they would not have to expect all this. The years would run like pearls on a string, one as blessed as the other. The inhabitable part of the earth would never be plagued by too much cold or too much heat. But since the intelligent and exceedingly clever people do all sorts of things far beyond their needs, when they build too large buildings and make too much improvement on the earth, digging up whole mountains to build army roads, when they destroy hundreds of thousands of acres of the most beautiful woodland, when they punch holes in the mountains too deep for gold and silver, when they finally live among themselves in constant bickering and strife, while at all times they are surrounded by a great multitude of the most intelligent spirits of nature, from whom all the weather of the earth is derived, as well as the purity and health of the air, water and soil, - is it then to be astonished, when this earth is more and more afflicted by a myriad of evils of all sorts and kinds?!"

Jesus also told His disciples that fire will play a major role in the end times, first spiritually as the equivalent of the lust for power that will sweep over mankind like the waters of the flood of sin. This present spiritual and mental flood of sin will kill people in body and soul.

SC 065.02

„A spiritual flood of sin now passes over the earth, as once 4000 earth years ago in Noah's time a material flood passed. The latter killed the flesh, but this kills the soul and body. The soul kills this flood through the spirit of lust for power, which now - like once the waves of water - comes from the interior of the earth and from the air, i. e. out of their evil spirits and corrupts the souls he floods with imperiousness.“

SC 065.03

“This flood is like a fire and is the same fire that is written about (in Petr. 2. 03) that the world will be judged generally for the second time. But if you do not want to be seized by this terrible flood of fire, then remain firmly with me. Do not soon judge like this and soon like that and do not say either: This or that, this or that party, or the big ones or the little ones are right. Because I say to you: Now no one is right than he who only leans neither back and forth but remains straight and rock solid with me and leaves everything to me alone. What is above is sin! “

SC 065.04

„All this had to come so because of the word of God, which is my word, as I myself have spoken in Jerusalem about Jerusalem and the like about the whole world. Great things are yet to happen. You will see much evil and hear much talk about it. One people will condemn the other and one party will build gallows for the other. Those who recently welcomed each other as friends will betray one another, the son the father and the father the son! But do not judge anyone, but leave everything to Me, so you will be in my ark of peace in which nothing bad of this time will be able to reach you.“

SC 066.05

„Who among you has the power to make a difference in the world? If he judges one party and they win, will they not seize him and demand an account from him? But if he does it with the other and the first one wins, will the first one not do the same as the other with the one who was against her? Since I have not yet predestined victory for any party but only for the one who holds it with me, so abstain from every praise as well as every reproach! Whom you shall praise or whom you shall rebuke, I alone know, and will give to everyone according to his work. “

SC 066.06

*„But if a power wins, then obey the power that has won. **Because she would not be a power, if she were not from me!** When I accepted Pilate's judgment and did not resist it, since it was My own body, do not grumble in your safety about what is happening now. **Without my will no sparrow falls from the roof and even all hair of your head is counted.** How are these things now to be able to happen, completely without my will? But if that is my will, because the world itself wanted and still wants it, then my concern is also to preserve those who hold tight to me and leave everything to me. Don't you know that my counsels are unsearchable and my ways unfathomable?“*

SC 066.07

“I don't need to tell you again what's going to happen. Because still very much can happen, but also very little, after which men will turn from me or to me. The sword has already raged badly, but when men will still longer drift in the flood of domination, I will send another angel, namely the hunger and at the same time plague angel. These teachings will certainly teach people quite different concepts than those which now animate them.“

SC 067.08

*“But your motto is: **“Give the Emperor what is His, but above all give Me what is Mine.”** Thus you will get along best with the world and with Myself and will truly be My children in everything. . . “*

The Lord also said that there will be four kinds of purification through fire. We may take this symbolically and in reality.

The **first kind of purification** will be an unprecedented general distress, a time of misery and tribulation. In this will prevail unkindness, disbelief, wars, inflation, high taxes, hunger, epidemics, hurricanes, earthquakes and sea floods.

The father of Kado once said to Jesus:

GGJ 08.185.01

„O Lord and Master, what will it be like in that time of which You said that in it men will be purified by fire before Your second coming, and what kind of fire will that be?“

GGJ 08.185.02

“Yes, friend, the fire will be called great and general distress, misery and tribulation as the earth has never seen a greater one. Faith will be extinguished and love will grow cold, and all poor families will mourn and languish, but the great and powerful and the kings of this world will still not help the petitioners because of the too great pride and therefore also because of the too great hardness of their heart!

So also one nation will rise up against another and will wage war against it with firearms. As a result, the rulers will run into huge, unaffordable debts and will torment their subjects with exorbitant taxes.

This will result in excessive inflation, famine, many evil diseases and pestilence and epidemics among people, animals and even plants! Let's think about the dying of trees)

And there will be great storms on the dry land and on the sea and earthquakes, and the sea will flood the shores of many places, and there men will be put into great fear and anxiety in expectation of the things that will come upon the earth!

All this will therefore be allowed to turn men away from their arrogance and from their selfishness and from their great laziness. The great and the mighty will be chastened by boredom and will be forced by it, to get rid of this torment, to get into action.

And behold, this is the first genre of fire through which people will be refined for my repeated arrival.”

The use of large engines in ships, railways and cars makes the **second type of purification** possible. Then there are the power stations, the use of electricity, then the wars with firearms.

GGJ 08.185.07

„But in the same time also the natural fire will come to do a tremendous service. The fire will drive the ships on all seas with more than the speed of the winds; also men will make brazen carriages and roads by their sharp intellect and instead of draught animals they will harness fire in front of the carriages and with his power go farther over the earth than a shot arrow.”

GGJ 08.185.08

“So they will also know how to ban lightning (electricity) and make it the fastest bearer of their wishes and their will from one end of the earth to the other. And if they, the proud and greedy kings, will make war with each other, fire will be given the most decisive service: Because by his violence iron masses in the shape of spheres of great weight will be hurled in a flash against the enemy, against the cities and fortresses and cause great devastation.”

GGJ 08.185.09

“And the inventive men will do it with these weapons so far that then soon no nation will be able to start a war against the other. For if two nations will attack each other with such weapons, they will also easily and soon annihilate each other to the last man, which will certainly not bring a true victory and profit to any part. The kings and their generals will soon realize this and will therefore prefer to get along in peace and good friendship; and if any most proud and ambitious troublemaker will rise up and move against his neighbor, the peace-lovers will unite and chastise him. And in this way the old peace among the peoples of the earth will then also gradually come into being and be permanently fortified.

This could have been a reference to the United Nations and the UN blue helmets. But there are other indications.

GGJ 08.185.11-12

“There will still be wars among the even more wild peoples of the earth, but they will soon also become impossible among them. I will drive them into pairs through My righteous and powerful kings and military leaders and let My Light be poured out under them, and they will then also be converted into peaceful and light-friendly peoples. And see, this is the second kind of fire through which men will be purified.”

Now let us hear what Jesus said about the **third way of purification**:

GGJ 08.186.01

“But a third kind of fire will consist in the fact that already some hundred years before I will awaken seers and prophets and servants who are enlightened more and more brightly, who in My name will instruct the peoples everywhere just as clearly and truthfully about everything and will thereby free them from all kinds of deceit and lies, who through the false prophets and priests will pave the way to their downfall even in My name - and thus will start the evil beginning in not too long time and have already started here and there in this my time.”

GGJ 08.186.02

“These will perform false signs and wonders like the pagan priests and will seduce many people, and in doing so will acquire great earthly treasures, riches, power and great prestige; but through the third fire and its brightest light they will come around everything and be completely destroyed. And the kings and princes who want to help will lose all their power, their wealth and their thrones; for I will raise My kings and military leaders against them and give them victory, and so the old night of hell and its messengers on earth will come to an end among men.”

GGJ 08.186.03

“But just as this night consists in the pagan, blind and senseless ceremony called worship, so it will also exist in those times, but will be completely destroyed and annihilated by the third kind of fire from the heavens! For the lie will be no more victorious in the struggle with the light of truth from heaven than natural night can defy the rising sun! She has to flee into her dark caves and depths and those who once stand in the light will no longer go out into the night. “

The **fourth type of purification** will consist of great natural revolutions, which will mainly affect the large industrial cities.

GGJ 08.186.04

“I have now shown you the third kind of fire which has a highly destructive effect on the darkness of men, and so I will then also still show you a fourth kind of fire, through which men and the whole creature are to be purified at my second coming; and this kind of fire will consist in great natural earth revolutions of all kinds and genres, namely at those points of the earth where men will have built themselves too great and magnificent cities, Within it will reign the greatest arrogance, unkindness, evil morals, false judgments, power, prestige, inertia, and at the same time the greatest poverty, all kinds of distress and misery, brought about by the excessively elevated epicureanism of the great and powerful.”

On the causes and effects of local and atmospheric inflammation Jesus said:

GGJ 08.186.05

“In such cities out of exaggerated greed for profit also all kinds of factories will be built on the largest scale and fire and water will work in them in the place of men's hands in a union of thousands of artful machines made of ore. The firing will be done by means of the ancient earth coals, which the present humans will obtain in oversized masses from the depths of the earth.”

GGJ 08.186.06a

“If such action and activity by the force of fire has reached its highest point, then at such points the earth air will be filled with the combustible ether types too powerfully, which will soon ignite here and there and turn such cities and areas into rubble and ashes together with many of their inhabitants; and that will be a great and effective purification.”

We also have to consider the big fires in America and Australia as refining agents. There were miracles in these fires as well, because there are believing people who speak publicly about the fact that they consider it a miracle of God that their house was jumped over by fire. Jesus also foretold great storms and explained their task to the disciples.

GGJ 08.186.06b

“But what the fire caused in this way will not achieve, other great earth storms of all kinds and types will achieve where it will of course be necessary; because without need there will be nothing burnt and destroyed.”

GGJ 08.186.07

“We should remember that nothing is burned or destroyed without need. Especially when we want to doubt the love of the Father. But through this the air of the earth will then also be freed from its evil fumes and spirits of nature, which will then exert a beneficial influence on all other creatures on earth; and what will then also serve the natural health of the people in such a way that all the many and evil diseases of the body will cease and people will be able to reach a healthy, strong and old age.”

The uninhibited exploitation of energy resources will lead to self-inflicted fires.

GGJ 08.051.04

„A natural fire will devastate many places at that time; because in that time men will penetrate like evil worms into the depths of the earth out of too much exaggerated earthly greed for profit and seek and also find all kinds of treasures in it. But when they will come to the mighty camps of buried primeval forests of the earth and will use them for firing and melting of metals and still for many other things, then the last judgement, which they will prepare for themselves, will be at the door.

But those who will suffer most will be those who will dwell in the great cities of the kings and of the mighty men of the earth.”

The fire and weapons will kill many more people before Jesus' coming.

GGJ 06.150.17

“But then the greatest revelation will happen through my repeated descent on this earth; but this revelation will also already be preceded by the greatest and sharpest judgement and will be followed by the general sighting of world people through the fire and its projectile, so that then I myself will be able to establish a completely different nursery for true people on this earth, which then will last until the end of times of this earth.”

Jesus also told the disciples that He would warn people through prophets before the judgments, but the haughty people would not believe these warnings and ignore them.

GGJ 06.174.02

„Then also great signs will happen on earth, on the sea and in the sky, and I will raise up servants who will prophesy from my word and announce the coming judgement several times (see Mt. 24. 09). But the arrogance of men will not listen to them, and when he will also listen to them then he will still not believe their words but laugh at them as fools. But exactly this will be a sure sign that the great judgement will certainly and definitely come, which will consume all perpetrators of evil through fire.“

If people would believe these admonishing seers or even some admonishing scientists and change, many a thing could be averted.

GGJ 10.188.10

„And that is why I have therefore also planned and determined this for their finite judgement that they all are to perish in the end through the fire and light of my flash.“ (Under the fire and light of the lightning is meant the Divine Truth)

And so that will come true what I have already once told you on one occasion, that I will let the earth be cleansed from its waste through fire in the end ...

I say to you: All calamity, epidemics, all kinds of diseases among men and animals, bad weather, lean and barren years, devastating hailstorms, great and all-destroying floods, hurricanes, great storms, great locusts and the like are all consequences of the disorderly conduct of men!“

We were predicted great storms on land and sea; earthquakes, sea floods and the fears of today's people. When today's scientists say that global warming can lead to sea floods, we have to take this seriously, because Jesus also spoke of great storms on land and sea, of earthquakes and sea floods.

GGJ 08.185.04

„Also there will be great storms on the dry land and on the sea, and earthquakes (see Mt. 24. 07), and the sea will flood the shores in many places, and there men will be put into great fear and anxiety in expectation of the things that will come upon the earth!“

All this will therefore be allowed to turn men away from their arrogance and from their selfishness and from their laziness.“

The allowed earthquakes are to admonish people to change their lives. Jesus said to Lazarus, among others, in this regard:

GGJ 06.174.05

“Large earthquakes will also precede so that people should exhort themselves to repent and love. Blessed are those who will turn to it!“

It has already been said that a great rethink has begun in Japan. The Japanese were of the opinion that something like that in California could not happen to them, because their buildings were earthquake-proof. But reality taught something different.

Further Jesus said to Lazarus :

GGJ 06.174.06

„But even many will not turn to it and will ascribe it to the blind forces of nature, and the prophets will be scolded for deceivers, and many will be thrown into dungeons for the sake of my name and are forbidden to speak in my name and to announce a coming judgement under great threat of punishment....”

When today there are warnings of atmospheric heating and air pollution, as well as of the fluorocarbons that create the ozone hole, these cosmic warning signs are the ones that very few people want to hear.

Jesus to Lazarus:

GGJ 06.150.16

“People will also be warned by seers and special signs on the firmament, but only the few of mine will turn their backs on it, while world people will only see this for rare effects of nature and will spit it out before all those who still believe in me .”

We now want to mention some of what Jesus said about the importance of forests. This happened when the disciples once asked Jesus why such a forest was not used by anyone. Then Jesus said to them:

GGJ 09.063.03

“Be glad that there is still such a healthy forest in the Promised Land and that it has not yet become a despicable victim of human greed! In this forest you can still find places where the honey flows out of the trees like little streams; because in such forests there are still plenty of bees and they prepare the honey.”

GGJ 09.063.04

„For this purpose I have also created all kinds of animals, which first of all is there just as necessary for the natural existence of the earth as the eye is for man to see, and secondly is completely indispensable for the progressive and independent training of the souls on this earth as I have already shown you on other occasions quite circumstantially and also essentially through the opening of your inner sight; and so you will then also see that the animal of all kind and species, because it has to exist according to my order for the finite training of man, still has to have a dwelling place beside man on this earth. And for this then also here and there on earth such bigger and denser forests are necessary. But they also have a thousand other purposes.”

GGJ 09.063.05

„Above all, they are the first receptacles for innumerable nature spirits, who receive the first separate incorporation (incarnation, wrapping with a body) in the realm of plants, already with an ordered intelligence, and thus reach maturity, through which they can then already move on to the more intelligent and freer animal life, which all I have also already shown you because I therefore want it that you well are to recognize all secrets of the kingdom of God on earth.”

GGJ 09.063.06

„As long as such forests exist on earth in justly abundant measure and the nature spirits, which always return to earth from all stars and develop and ascend from this earth, find their reception in such forests, so long you will not see too violent elemental storms or any pestilential diseases appearing above the ground; but when once the greedy lucre of men are going to grasp too much after the forests of the earth, then it will also be evil for men to live and to exist on this earth and most evil where the clearings of the forests will take over too much, which you also can remember to warn men of such loose industry in time.“

Jesus also pointed out to us the connection between the destruction of forests, desertification and the hurricanes. During His sojourn near Caesarea Philippi at the fisherman Markus, Jesus said much to His own about the future of mankind and among other things also:

GGJ 05.109.01

„Look at the mountains full of forests and bushes! Behold, these suck all the nature spirits that suit them (electricity, magnetic fluid?) to the appropriate extent! Go and deforest all the mountains, and you will feel the consequences of it very bitter tasting very recently! Through this great masses of free and roughest nature spirits will begin to fill the air stored over the whole earth more and more. These will, because they cannot find suitable places to live and work, begin to take hold en masse and will, through their restlessness and through their hunger and thirst (assimilation instinct), cause the most evil and devastating storms and destroy whole countries in such a way that in a hundred, often a thousand years nothing but here and there a moss plant will appear, as there are still today on the wide earth such many day journeys far stretched places and areas, which are as empty of vegetation as a desert and deaf limestone on the shores of the Dead Sea in Lower Palestine, where the Jordan River flows.“

To the sacrilege of the excessive clearing of the woods and the burning of the forests, Jesus said:

GGJ 04.143.05

„Put on a fire and burn all the forests, then the mountains will be completely barren! But what will be the consequence of this? The many spirits of nature that have become dormant and naked as a result will then begin to burn and rage in the open air. Lightning in myriads, cloudbursts of the most horrible kind and a continuous hailstorm will devastate the whole and wide surroundings. Tell me, will the wrath of God and His vengeance come out of this?!“

Regarding the causes of the flood of sin, Jesus said:

GGJ 04.143.06

“But when ten times hundreds of thousands of people earnestly strive to dig up mountains and fill up great lakes or build the widest army roads to wage wars more easily; when people scarpe whole mountain ranges day-trip wide (slopes, bevels) to four hundred to five hundred man lengths high or dig deep trenches two hundred to three hundred man-lengths deep around the mountains and thereby open up internal water locks for the earth, so that the mountains begin to sink into the large empty water basins and the water begins to rise, that in Asia close above the highest mountain peaks begin to sway like a sea - In addition, these great mountain destructions have also destroyed many

hundreds of thousands of acres of the most powerful forests, on which occasion countless myriads of earth and nature spirits, which in the past had to do with the most beautiful and lush vegetation, have now suddenly become free and inactive, and which masses of downpours, which masses of hail and which innumerable lightnings it has flung out of the clouds onto the earth for more than forty days, and what masses of water will have risen almost all over Asia, and all for natural reasons! Say, was that again God's anger and His never reconcilable revenge ?!"

GGJ 04.143.07-08

"Moses described this history as well as everything else in the spelling customary at that time, that is, in pictures in which, after the input of the divine Spirit, he always let My providence prevail, which can only be brought out by way of genuine and true correspondences.

But is God therefore a God of wrath and vengeance, such as you and even many have never understood His great revelations?"

GGJ 04.144.01

"I'll tell you:

Only fifty years live in the right order of God - and you will never see, hear, taste, or enjoy any calamity!"

GGJ 05.109.07

"Do people want a renewed flood of sin, they may only diligently dig up and through the mountains, and they will open the floodgates to the underground waters! If they want to see the whole earth in flames, they may only diligently destroy all forests, and the nature spirits (electricity) will multiply in such a way that the earth will suddenly be engulfed in a sea of lightning. Will I then also want to haunt the earth through fire?!"

Therefore teach men to be wise, otherwise they themselves will provoke the judgements upon them! I know it's coming, though, and still I cannot and must not hinder it through my omnipotence but only through teaching..."

Jesus also said that the earth becomes more and more barren through overexploitation.

GGJ 03.033.04

"But soon after that time (Technisation) things on earth will start to look very bad for the life of men; for the earth will become more barren..."

I know from a friend in the spirit, who comes to the farmers a lot, that they are already saying that there will come a time when almost nothing will grow anymore. The leakage of the earth, which we call the ozone hole, and the brittleness of the Van Allen Belt is based on misuse of inventions and on egoism.

In the "gifts of heaven", the Lord said the following about earthquakes and their causes, among other things:

GoH 01.135.14

“As long as there is an unruly gender somewhere on earth, so long also such phenomena (earthquakes) will occur all the more frequently, the more sensual and god-forgotten any human race becomes on the surface of the earth.”

GoH 01.136.17

“But although such perceptions (earthquakes) are therefore natural consequences, they are not only to be regarded as such; but when they would be purposeless then you can well think that it would be easy for me to prevent them. But because they are useful out of my love and wisdom, so they are rather led to such places as admonishers, where crowds can be found, which hardly know more about me than the trees in a forest. Such messengers then tell men who forget God that I have not yet died but still exist in all my might and power. And as only a slightest hint is needed from me, so also such notified places of the earth can have a similar fate as the area Ararat.”

GoH 01.138.27

“If such a phenomenon as that of the region of Ararat (earthquake at the time of Lorber) is frightening to you, but on the other hand it is again a new blessing for the preservation of the whole. Because if this would not happen in the way already mentioned, then in the next glance instead of the destruction of a small area the whole earth would experience a completely devastating fate. “

GoH 01.138.29

“And so you also can be completely assured that when on any place among a million men there is only one who has recognized me in his love, so the place, and would be its subsoil as thin as a sheet of paper, yet remain as firm and secure as if its subsoil were a rock many miles thick and solid. But where also not one more is to be found among a million who wants to recognize me as the most loving preserver of all worlds and all creatures, there a sun-thick diamond crust will become too weak to stop the devastating necessity of My eternal order.”

GoH 01.139.30

“Behold then, if you truly love Me, you should fear nothing and would the earth also crumble into ruins under your feet! Truly I say to you: Even on the steaming wreckage of a destroyed world you would experience that I am the eternal love and a true, only good father to those who have recognized me in spirit and in the truth of the love of their heart.”

That this is really the case and that the Lord still today makes possible and permits wonderful salvations and preservations, evidence of that is always appearing.

But further the Lord said:

GoH 01.139.31

“Yes, I tell you, I will destroy suns and throw the wreckage of the world like lightning and ignite with the fire of My fury the whole eternal infinity and yet not a hair shall be singed from those who love Me. For I am always a loving and holy Father to My children! - Amen.”

Are these not very comforting words of the Lord, which should take away the fear of the coming events from every anxious person?

We should also remember that many events of the last days are to be considered spiritually.

For in the “gifts of heaven” we are told:

GoH 01. P. 223

“As for the last days, you have nothing to do with the "end of all time", but only with the time in which you live. Because that is everyone's "last time." -

Therefore watch in that one and be diligent in love, so that this heavenly power may become your share eternally!”

With this wish of the Lord I would like to conclude these explanations.

The main works of the mystic Jakob Lorber (1800-1864)

The Great Gospel of John (10 volumes, each of approx. 450 pages) (GGJ) (11th volume by Leopold Engel)

In this great and glorious work of revelation we receive according to the promise of John. 14. 26 an accurate, in-depth and thoughtful description of all that Jesus did and spoke in the three years of His earthly teaching. From the fullness of the in Joh. 21.25 signified, the love and grace of the Heavenly Father has here revealed infinitely great things to men for their enlightenment and salvation.

The Household of God (3 volumes, each of approx. 450 pages) (HoG)

This work reveals in powerful language a vast picture of the divine world plan, the history of creation and the prehistory of mankind from the creation of Adam to the Flood.

The Youth of Jesus (approx. 420 pages) (YJ)

This is the rendering of the lost youth story of Jesus, the so-called Gospel of James, written by James the Lord's stepbrother. Including the wonderful description of Jesus' childhood, it also gives us a bright light on the mystery of God and man in the person of Jesus.

The Spiritual Sun (2 volumes, each of approx. 500 pages) (SpS)

Basic instruction about the conditions in the beyond and the further development of souls there. A highly significant work for advanced students.

Bishop Martin (approx. 500 pages) (BM)

Paths of development of a bishop secluded in human imperfection in the beyond until his completion.

From Hell to Heaven (Robert Blum) (2 volumes, each of approx. 500 pages) (HH or Rbl)

Experiences and adventures of the revolutionary Robert Blum in the afterlife, who was shot in 1848. This work gives a very lively, multifacetedly enlightened picture of the further development of this political personality in the beyond to a child of God.

Earth and Moon (approx. 250 pages) (EM) (Earth)

Important main work on the spiritual explanation of the world. Comprehensive depiction of the construction and the meaning of the earth and the moon.

The Natural Sun (1 volume, approx. 320 pages) (NS)

More than the works of scholarly astronomy, this book reveals to us the creations of the solar system. The main thing, however, is that this study of the sun and the stars leads us to God and to life out of God.

Scripture explanations (approx. 112 pages) (Sce)

Illuminating, revealing explanation of important Bible passages.

The three Days in Temple (approx. 96 pages) (TDT)

The twelve-year-old Jesus in the temple in Jerusalem.

Correspondence of Jesus with Abgarus (approx. 40 pages) (CJ)

Reproduction of the only real correspondence of Jesus, of which the historical work of the church father Eusebius tells.
